Chairman's Report

On behalf of the Board, I am pleased to present the fifth Annual Report on the operations and activities of the Bermuda Deposit Insurance Corporation (BDIC) for the year ended March 31, 2021.

At the end of our last fiscal year, the direct impact of COVID-19, which was being felt in Bermuda and around the world, necessitated far reaching public policy changes to protect our people and our economy with sensitivity and balance. We responded to these changes which included structured shelter-in-place requirements with appropriately designed work from home arrangements for our staff as well as our board by making use of collaborative technologies. We also welcomed the Government's early strategies which were designed to minimize the economic impact on people and businesses.

Notwithstanding these potentially adverse developments, the BDIC continued to play a strategic role alongside the Bermuda Monetary Authority in providing an enhanced financial safety net for depositors of qualifying Scheme members in Bermuda while adhering to the core principles of the International Association of Deposit Insurers.

While the impact on global economies and the financial markets in general has been severe as a result of the pandemic, we have experienced a measure of resilience in our operations, and as a result, the Deposit Insurance Fund (the "Fund") stood at \$28.39 million as at March 31, 2021 (2020 – \$21.92 million) and it continues to be principally invested in a ladder-style structure of US Government Treasury Notes with the investments spread across maturities ranging from 1 to 5 year time rungs.

Total premiums received from scheme members aggregated approximately \$6.66 million (2020 – \$6.21 million), with premiums earned on individual and joint accounts contributing \$6.10 million or 92% of the total (2020 – \$5.66 million (91%)). Premium income continues to be based on a premium rate of .25% per annum and charged on average quarterly declared insured deposits, which aggregated approximately \$2.67 billion for the year (2020 – \$2.48 billion). Total comprehensive income earned for the year was \$6.47 million (2020 – \$6.11 million) after incurring total operating expenses of \$571,000 (2020 – \$544,000). This resulted in approximately 92 cents (2020 – 92 cents) on every dollar of total revenue earned accruing to the bottom line and into the Fund.

The Board continues to be committed to fulfilling its mandate to manage the Deposit Insurance Scheme with prudent, sound management and operating practices while employing a conservative investment strategy in the management of the Fund.

Ministry of Finance
Hamilton

Dear Minister,

In accordance with section 35(1) of the Deposit Insurance Act 2011, I have the privilege to submit to you a report of the operations of the Bermuda Deposit Insurance Corporation for the year ended March 31, 2021 together with the statement of accounts and the opinion of the Auditor General.

Yours sincerely

Stephen W. G. Todd JP
Chairman

March 28, 2023

Management's Responsibility for the Financial Statements.

These financial statements have been prepared by management, who are responsible for the reliability, integrity and objectivity of the information provided. The preparation of financial statements necessarily involves using management's best estimates and judgments, where appropriate.

Management is responsible for maintaining a comprehensive system of accounting records, internal controls, policies and management practices, designed to provide reasonable assurance that transactions are properly authorized and in compliance with legislation, assets are safeguarded, and reliable financial information is available on a timely basis.

The Bermuda Deposit Insurance Corporation's Board of Directors are responsible for ensuring that management fulfills its responsibility for financial reporting and internal controls. The Board of Directors meet periodically with management to discuss matters relating to financial reporting, internal control and audits. The Board of Directors also review the financial statements before their approval. The financial statements have been approved by the Board of Directors and have been examined by the Office of the Auditor General.

The accompanying Independent Auditor's Report is presented herein.

Mr. Stephen Todd
Chairman

Mr. Alan Richardson
CEO

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of the Bermuda Deposit Insurance Corporation

Report on the Audit of the Financial Statements

Opinion

I have audited the financial statements of the Bermuda Deposit Insurance Corporation, which comprise the statement of financial position as at March 31, 2021, and the statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Bermuda Deposit Insurance Corporation as at March 31, 2021, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards generally accepted in Bermuda and Canada.

Basis for Opinion

I conducted my audit in accordance with auditing standards generally accepted in Bermuda and Canada. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Bermuda Deposit Insurance Corporation in accordance with the ethical requirements that are relevant to my audit of the financial statements in Bermuda, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards generally accepted in Bermuda and Canada, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bermuda Deposit Insurance Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bermuda Deposit Insurance Corporation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bermuda Deposit Insurance Corporation's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Bermuda and Canada will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with auditing standards generally accepted in Bermuda and Canada, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements (whether due to fraud or error), design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than from one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bermuda Deposit Insurance Corporation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going-concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bermuda Deposit Insurance Corporation's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Bermuda Deposit Insurance Corporation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements (including the disclosures), and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, related safeguards.

A further description of the auditor's responsibilities for the audit of the financial statements is located at the Office of the Auditor General website at: www.oagbermuda.bm. This description forms part of our auditor's report.

Report on Other Legal and Regulatory Requirements

As required by Schedule 2 of the Deposit Insurance Act 2011, I also report that, in my opinion, the financial statements show fairly the financial transactions and the state of affairs of the Bermuda Deposit Insurance Corporation, proper accounting and other records have been kept, including records of all assets of the Bermuda Deposit Insurance Corporation, and the receipts, expenditure and investment of moneys and the acquisition and disposal of assets by the Bermuda Deposit Insurance Corporation during the year ended March 31, 2021, were in accordance with the provisions of the Deposit Insurance Act 2011.

Hamilton, Bermuda

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2021

(Expressed in Bermuda Dollars)

1. General

The Bermuda Deposit Insurance Corporation (the "Corporation") was incorporated in Bermuda in 2011 as an independent body to administer and enforce the Deposit Insurance Scheme ("DIS" or "Scheme") in Bermuda, as well as to manage the Deposit Insurance Fund (the "Fund"). These financial statements reflect the financial position, results of operations, changes in equity and cash flows of the Corporation. The address of its registered and business office is 26 Victoria Street, Hamilton HM 12, Bermuda.

The functions, powers and operational practices of the Corporation are set out in Section 5 of the Bermuda Deposit Insurance Act 2011 (the "Act") and the Bermuda Deposit Insurance Rules 2016 and its amendments (the "Rules"). The primary functions of the Corporation are to collect premiums from all members of the DIS, that is Bermuda's licensed banks and credit unions, and investing them, issuing the prompt payment of compensation to insured depositors from the Fund, up to a current maximum limit of \$25,000, educating the public on the DIS and its purpose and ensuring institutions adhere to the DIS.

2. Basis of preparation and significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied for the period presented, unless otherwise stated.

(a) *Statement of compliance*

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") promulgated by the International Accounting Standards Board.

These financial statements were authorised for issue by the Board of Directors on March 28, 2023.

(b) *Frequency of reporting*

These financial statements were prepared for the year ended March 31, 2021 to comply with the reporting requirements of the Act.

(c) *Basis of measurement*

These financial statements have been prepared under the historical cost basis. Historical cost is generally based on fair value of the consideration given in exchange for assets or liabilities.

(d) *Functional and presentation currency*

These financial statements are presented in Bermuda dollars, which is the Corporation's functional and presentation currency.

(e) *Going concern basis of accounting*

The Corporation has prepared the financial statements for the financial year ended March 31, 2021 on a going concern basis which assumes continuity of current business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

In March 2020, the World Health Organization officially declared the outbreak of COVID-19 a global pandemic. Management is closely monitoring the evolution of this pandemic, including how it may affect Bermuda's economy, banking system and general population.

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2021

(Expressed in Bermuda Dollars)

2. Basis of preparation and significant accounting policies (continued)

(e) *Going concern basis of accounting* (continued)

COVID-19 has caused significant disruption to businesses and economic activity in Bermuda and has resulted in a number of people being furloughed or laid off. The going concern basis of preparation assumption for the Corporation's financial statements is dependent upon the future receipt of premiums from licensed banks and credit unions and no major loss from the non-viability or insolvency of the members of the DIS (Note 9 (b) (iv)).

(f) *Use of estimates and judgements*

The preparation of these financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Statement of Financial Position and the reported amounts of revenues and expenses during the year. Significant areas requiring the use of management estimates and assumptions include evaluating the useful lives of property and equipment and estimating the expected credit loss for accrued income, cash and cash equivalents and investments. Actual results could differ from those estimates.

(g) *Revenue from premium contributions*

The Corporation collects premium contributions from the Scheme members in line with the DIS rules. Revenue from premium contributions is recognised at a point in time when premiums calculated are issued. Premiums are determined at the end of each premium period ending in March, June, September and December, based on the amount of insured deposits held by the Scheme members. Premium rates are fixed annually.

(h) *Expenses*

Expenses are recorded on the accruals basis in the year in which the goods or services are acquired or a liability is incurred.

(i) *Cash and cash equivalents*

Cash and cash equivalents include cash on hand and short-term investments. Cash and cash equivalents are measured at amortised cost, which approximates fair value, on the statement of financial position.

(j) *Property and equipment*

Items of property and equipment are measured at cost less accumulated depreciation and any impairment losses. Cost includes amounts that are directly attributable to acquisition, construction, development or betterment of the asset. Depreciation is charged on a straight-line basis over the estimated useful lives of the assets. The following useful lives are used in the calculation of depreciation:

<u>Assets</u>	<u>Useful life</u>
Furniture and equipment	3 years
Computer hardware	3 years
Right-of-use assets	7 - 7.5 years

Depreciation expense is included in expenses on the Statement of Comprehensive Income. The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognised in the Statement of Comprehensive Income.

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2021

(Expressed in Bermuda Dollars)

2. Basis of preparation and significant accounting policies (continued)

(j) *Property and equipment* (continued)

If an asset's carrying amount exceeds its recoverable amount, the asset is impaired and the carrying amount is written down to the recoverable amount. The total impairment loss is recognised in the Statement of Comprehensive Income. The reversal of an impairment loss is recognised in the Statement of Comprehensive Income to the extent that an impairment loss was previously recognised.

(k) *Financial instruments*

The Corporation's financial instruments consist of cash and cash equivalents, accrued interest, investments in US Government Treasury Notes, accrued income, accounts payable and accrued liabilities, and lease liabilities.

The classification of financial instruments at initial recognition depends on the purpose and management's intention for which the financial assets were acquired.

(i) *Financial assets*

Classification of financial assets

The Corporation classifies its financial assets at amortised cost. The Corporation's financial assets classified at amortised cost consist of cash and cash equivalents, accrued interest, accrued income and investments. The Corporation determines the classification at initial recognition and re-evaluates this designation at every reporting date. Financial assets are not reclassified subsequent to their initial recognition unless the Corporation changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at fair value through profit or loss, or fair value through other comprehensive income:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Business model assessment

The Corporation makes an assessment of the objective of the business model in which the financial asset is held at a portfolio level because this best reflects how the Corporation is managed and the information is provided to management. The information considered includes the stated policies and objectives of the portfolio and the operation of those policies in practice.

Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Corporation considers the contractual terms of the instrument. These include assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Corporation considers:

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2021

(Expressed in Bermuda Dollars)

2. Basis of preparation and significant accounting policies (continued)

(k) Financial instruments (continued)

(i) Financial assets (continued)

- Contingent events that would change the amount or timing of cash flows;
- Terms that may adjust the contractual coupon rate, including variable-rate features;
- Prepayment and extension features; and
- Terms that limit the Corporation's claim to cash flows.

A prepayment feature is consistent with solely payment of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest in the principal amount outstanding.

Financial assets – Subsequent measurement and gains and losses

The Corporation's financial assets are initially measured at fair value plus transaction costs that are directly attributable to the acquisition and are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

(ii) Financial liabilities

The Corporation classifies accounts payable and accrued liabilities and lease liabilities as financial liabilities. These are initially classified and subsequently measured at amortised cost using the effective interest method.

(iii) Derecognition of financial assets and liabilities

Financial assets

A financial asset is derecognised when:

- The rights to receive cash flows from the asset have expired; and
- The Corporation has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows and either:
 - (i) the Corporation has transferred substantially all the risks and rewards of the asset; or
 - (ii) the Corporation has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in the Statement of Comprehensive Income, if any.

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2021

(Expressed in Bermuda Dollars)

2. Basis of preparation and significant accounting policies (continued)

(l) *Impairment of financial assets*

The Corporation recognises loss allowance for Expected Credit Losses (“ECLs”) on financial assets measured at amortised cost. The Corporation measures loss allowances at an amount equal to 12-month ECLs for all investments and cash and cash equivalents that are determined to have a low credit risk at the reporting date and for which credit risk has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Corporation considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Corporation’s historical experience and informed credit assessment and including forward-looking information.

The Corporation assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due and is in default when the financial asset is more than 90 days past due.

The Corporation considers an investment to have a low credit risk when the credit risk rating is equivalent to the globally understood definition of “investment grade”. The Corporation considers this to be BBB- or higher per Standard & Poor’s.

Lifetime ECLs are the ECLs that result from possible default events over the expected life of a financial asset. 12-month ECLs are the portion of the ECLs that result from default events that are possible within the 12 months after the report date (or shorter period if the expected life of the instrument is less than 12 months).

Measurement of ECLs

ECLs are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls. ECLs are discounted at the effective interest rate of the financial assets.

Credit-impaired financial assets

At each reporting date, the Corporation assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial assets have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- Premium has not been received 90 days after the statutory due date;
- Evidence of impairment on accrued income include that the insured entity is experiencing significant financial difficulty, there is a probability that they will liquidate or deregister or there has been a long-term delinquency in payments;
- Significant financial difficulty of the issuer or obligor;
- The disappearance of an active market for that financial asset;
- It becomes probable that the issuer or obligor will enter bankruptcy or other financial reorganisation.

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2021

(Expressed in Bermuda Dollars)

2. Basis of preparation and significant accounting policies (continued)

(l) *Impairment of financial assets (continued)*

Presentation of allowance for ECLs in the Statement of Financial Position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amounts of the assets. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating or an improvement in the ECLs), the reversal of the previously recognised impairment loss is recognised in the Statement of Comprehensive Income.

Financial assets, other than accrued interest and accrued income, are only derecognised when contractual rights to cash flow expire. For accrued income, the gross carrying amount is written off when the Corporation has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof.

(m) *Provision for losses*

A provision is recognised if, as a result of a past event, the Corporation has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Given no claim has been made on the Corporation to date, management has determined that a provision for expected losses is not required. As there is no history of members of the DIS becoming non-viable or insolvent, a provision for unexpected losses cannot be reasonably estimated at this time. The Corporation will continue to assess the requirement to include a provision for both expected and unexpected losses as the Corporation matures and gathers historical loss data and experience, if any.

(n) *Leases*

The Corporation assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract has an identifiable asset from which the Corporation obtains substantially all the economic benefits and conveys to the Corporation the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Corporation uses the definition of a lease in IFRS 16.

As a lessee

At commencement of a contract that contains a lease component, the Corporation allocates the consideration in the contract to each lease component on the basis of its relative stand-alone price.

The Corporation recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2021

(Expressed in Bermuda Dollars)

2. Basis of preparation and significant accounting policies (continued)

(n) Leases (continued)

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Corporation by the end of the lease term or the cost of the right-of-use asset reflects that the Corporation will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Corporation's incremental borrowing rate. The Corporation uses its incremental borrowing rate of 4.75% as the discount rate.

The Corporation determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- The exercise price under a purchase option that the Corporation is reasonably certain to exercise, lease payments in an optional renewal period if the Corporation is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Corporation is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if the Corporation changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Corporation presents right-of-use assets in property and equipment and lease liabilities separately in the Statement of Financial Position.

During the year ended March 31, 2021, the Corporation did not enter into any contracts as a lessor.

Short-term leases and leases of low-value assets

The Corporation has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including cancellable leases. The Corporation recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2021

(Expressed in Bermuda Dollars)

3. New and amended standards adopted by the Corporation and forthcoming standards

- (a) There were a number of amendments to standards that were effective for periods beginning on or after April 1, 2020 but they do not have a material effect on the Corporation's financial statements. These have been listed below:
- Amendments to References to Conceptual Framework in IFRS Standards
 - Definition of a Business (Amendments to IFRS 3)
 - Definition of Material (Amendments to IAS 1 and IAS 8)
 - Interest Rate Benchmark Reform (Amendments to IFRS 9, IAS 39 and IFRS 7)
 - Extension of the Temporary Exemption from Applying IFRS 9 (Amendments to IFRS 4)
- b) A number of new or amended standards are effective for annual periods beginning after April 1, 2020 and early adoption is permitted; however, the Corporation has not early adopted the following new or amended standards in preparing its financial statements. The following amended standards and interpretations are not expected to have a significant impact on the Corporation's financial statements in future periods.
- Classification of Liabilities as Current or Non-current (Amendments to IAS 1)
 - Covid-19-Related Rent Concessions (Amendment to IFRS 16)
 - Interest Rate Benchmark Reform – Phase 2 (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16)
 - Onerous Contracts-Cost of Fulfilling a Contract (Amendments to IAS 37)
 - Property, Plant and Equipment - Proceeds before Intended Use (Amendments to IAS 16)
 - Reference to the Conceptual Framework (Amendments to IFRS 3)
 - Disclosure of Accounting Policy (Amendments to IAS 1 and IFRS Practice Statement 2)
 - Definition of Accounting Estimate (Amendments to IAS 8)
 - Annual Improvements to IFRS Standards 2018 – 2020

4. Cash and cash equivalents

Cash and cash equivalents are comprised as follows:

	<u>2021</u>	<u>2020</u>
Short term investments	\$ 253,301	\$ 1,164,385
Cash at bank	<u>164,010</u>	<u>147,126</u>
	<u>\$ 417,311</u>	<u>\$ 1,311,511</u>

The effective interest rate earned on the Corporation's cash and cash equivalents is 0.14% at March 31, 2021 (2020 – 7.6%).

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2021

(Expressed in Bermuda Dollars)

6. Commitments

The Corporation has a long-term contract with an outside service provider. Any financial obligation resulting from this is recorded as a liability when the term of this contract and agreement for the acquisition of goods and services or the provision of transfer payments are met.

Annual contractual commitments are as follows:	2021	2020
Less than one year	\$ 10,200	\$ 10,200
Between one and five years	6,800	17,000
	\$ 17,000	\$ 27,200

7. Leases

The Corporation leases office space and parking space. The office space lease was entered into on October 1, 2016. The lease expires on September 30, 2021 with an option to renew for a further term of 5 years. The parking space lease was entered into on July 29, 2019 without a term limit and it can be cancelled by either party by giving one month's notice. The Corporation has recognised a right-of-use asset and lease liability for these leases.

Set out below are the carrying amounts of right-of-use assets recognised and the movements during the period.

Balance at April 1, 2019	\$ 263,122
Additions to right-of-use assets	17,598
Depreciation charge for the year (Note 5)	(36,720)
Balance at March 31, 2020	\$ 244,000
Additions to right-of-use assets	—
Depreciation charge for the year (Note 5)	(37,548)
Balance at March 31, 2021	\$ 206,452

Set out below are the carrying amounts of lease liabilities recognised and the movements during the period.

Balance at April 1, 2019	\$ 263,122
Additions to lease liabilities	17,598
Accretion of interest	13,334
Payment of lease liabilities	(44,549)
Balance at March 31, 2020	\$ 249,505
Additions to lease liabilities	—

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2020

(Expressed in Bermuda Dollars)

9. Financial instruments

(a) Carrying amount and fair value of financial instruments

	2021		2020	
	Carrying value	Estimated fair value	Carrying value	Estimated fair value
Financial assets				
Cash and cash equivalents	\$ 417,311	\$ 417,311	\$ 1,311,511	\$ 1,311,511
Accrued income	1,805,239	1,805,239	1,581,389	1,581,389
Investments, amortised cost	26,190,953	26,664,663	18,980,956	19,744,043
Accrued interest	102,896	102,896	116,573	116,573
	\$ 28,516,399	\$ 28,990,109	\$ 21,990,429	\$ 22,753,516
	2021		2020	
	Carrying value	Estimated fair value	Carrying value	Estimated fair value
Financial liabilities				
Accounts payable and accrued liabilities	\$ 128,465	\$ 128,465	\$ 74,479	\$ 74,479
Lease liabilities	215,809	215,809	249,505	249,505
	\$ 344,274	\$ 344,274	\$ 323,984	\$ 323,984

The fair values of cash and cash equivalents, accrued income, accrued interest and accounts payable and accrued liabilities approximate their carrying values as they are short-term in nature.

The fair value of investments, at amortised cost are classified using a fair-value hierarchy that reflects the significance of the inputs disclosed in making the measurements:

Level 1 – quoted prices in active markets

Level 2 – inputs are observable either directly or derived from quoted prices

Level 3 – no observable inputs

The fair-value hierarchy requires the use of observable market inputs wherever such inputs exist. A financial instrument is classified at the lowest level of the hierarchy for which a significant input has been considered in measuring fair value.

	Level 1	Level 2	Level 3	Total
Financial instruments at fair value as at				
March 31, 2021				
Investments, current	\$ 6,397,519	\$ –	\$ –	\$ 6,397,519
Investments, non-current	20,267,144	–	–	20,267,144
Total	\$ 26,664,663	\$ –	\$ –	\$ 26,664,663

BERMUDA DEPOSIT INSURANCE CORPORATION

Financial instruments at fair value as at March 31, 2020				
Investments, current	\$ 3,147,706	\$ –	\$ –	\$ 3,147,706
Investments, non-current	16,596,337	–	–	16,596,337
Total	\$ 19,744,043	\$ –	\$ –	\$ 19,744,043

(b) Other risks

The Corporation is exposed to credit risk, liquidity risk, market risk and operational risk as a result of holding financial instruments. The following is a description of those risks and how the Corporation manages its exposure to them.

(i) Credit risk

Credit risk is the risk of loss of principal or interest due to uncertainty in counterparty's ability to meet its obligations. The maximum exposure to credit risk is represented by the carrying values of these financial assets on the statement of financial position. Cash and cash equivalents are held by two reputable financial institutions. Accrued income is due from Bermuda's banks which are regulated by the Bermuda Monetary Authority. Management actively monitors accrued income and the credit performance of the banks.

The credit quality of financial assets can be assessed by reference to the external credit rating and default rates published by Standard and Poor's:

	2021	2020
Investments		
AA+ **	\$ 26,190,953	\$ 18,980,956
**Moody's equivalent grade is Aa1		
Cash		
Cash at bank and in-hand		
BBB (2020 A)	\$ 164,010	\$ 147,126
AA-	253,301	1,164,385
	\$ 417,311	\$ 1,311,511

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2021

(Expressed in Bermuda Dollars)

9. Financial instruments (continued)

Impairment on cash and cash equivalents and investments held at amortised cost were measured on a 12-month ECL basis. This conclusion was based on the fact that:

- the Corporation considers that its cash and cash equivalents and investments have a low credit risk based on the external credit ratings of the counterparties;
- there was no significant change in the credit rating of any of the counterparties over the last 12 months.

The Corporation held cash and cash equivalents of \$417,311 at March 31, 2021 (2020 - \$1,311,511). The cash is held with two financial institutions, which are rated BBB and AA- (2020 - A and AA-) respectively, based on Standards and Poor's ratings.

Impairment on cash and cash equivalents has been measured on a 12-month ECL basis and reflects the short maturities of the exposures. The Corporation considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties.

The Corporation uses a similar approach for assessment of ECLs for cash and cash equivalents to those used for investments.

Impairment on accrued income was measured on an ECL basis. There exists a scope exception from the general ECL model for trade receivables that do not contain a significant financing component. The Corporation's accrued income satisfies this criterion and hence the standard allows for a provision matrix to be used for recognizing ECL.

Amortisation or accretion of the premiums/discounts on investments is included in 'accretion of discounts on investments, net' in the Statement of Comprehensive Income.

No ECL was recognised for cash or investments as at March 31, 2021 (2020 - \$nil).

The aging of accrued income and accrued interest at the reporting date was:

	March 31, 2021		March 31, 2020	
	Current to past 30 days	Past 60 days	Current to past 30 days	Past 60 days
Accrued income	\$ 1,805,239	\$ –	\$ 1,581,389	\$ –
Accrued interest	<u>102,896</u>	<u>–</u>	<u>116,573</u>	<u>–</u>
	<u>\$ 1,908,135</u>	<u>\$ –</u>	<u>\$ 1,697,962</u>	<u>\$ –</u>

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2021

(Expressed in Bermuda Dollars)

9. Financial instruments (continued)

(ii) Liquidity risk

Liquidity risk is the risk that the Corporation will encounter difficulties meeting its financial obligations as they become due. Balances due within twelve months are met within the Corporation's normal 30-day cycle of disbursements.

		March 31, 2021		
	<u>Total</u>	<u>0 - 3 months</u>	<u>4 - 12 months</u>	<u>Greater than 1 year</u>
As at March 31, 2021				
Accounts payable and accrued liabilities	\$ 128,465	\$ 128,465	\$ –	\$ –
Lease liabilities	<u>215,809</u>	<u>8,425</u>	<u>25,272</u>	<u>182,112</u>
Total financial liabilities	<u>\$ 344,274</u>	<u>\$ 136,890</u>	<u>\$ 25,272</u>	<u>\$ 182,112</u>
		March 31, 2020		
	<u>Total</u>	<u>0 - 3 months</u>	<u>4 - 12 months</u>	<u>Greater than 1 year</u>
As at March 31, 2020				
Accounts payable and accrued liabilities	\$ 74,479	\$ 74,479	\$ –	\$ –
Lease liabilities	<u>249,505</u>	<u>8,424</u>	<u>25,272</u>	<u>215,809</u>
Total financial liabilities	<u>\$ 323,984</u>	<u>\$ 82,903</u>	<u>\$ 25,272</u>	<u>\$ 215,809</u>

The Corporation receives sufficient revenue from premiums to meet its funding requirements for at least the next 12 months.

(iii) Market risk

Price risk

Price risk is the risk that the future changes in the market prices may render financial instruments less valuable or increase the liability associated with such instruments. The Corporation is not exposed to significant price risk.

Interest rate risk

Interest rate risk arises from changes in prevailing levels of market interest rates. The Corporation is not exposed to significant interest rate risk.

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2021

(Expressed in Bermuda Dollars)

9. Financial instruments (continued)

(iv) Operational risk

The Corporation's main exposure is to the potential loss from the non-viability or insolvency of the members of the DIS that is considered to be a loss event. The Corporation's objective is to hold a Fund which is sufficient to withstand such a scenario. Proposals are being developed for the Special Resolution Regime ("SRR") in Bermuda to enhance the current framework for the resolution of non-viable or insolvent financial institutions that may also be members of the DIS. The Corporation is taking an active position in the formation of these proposals. As these proposals are in progress, the Corporation is unable to reasonably assess the target level of the Fund that is required to achieve the Corporation's objective. As at the year end, the Fund may not be sufficient to cover the Corporation's current exposure to a loss event and it is likely that the Fund will remain underfunded for the foreseeable future. The Fund is to be funded through the accumulation of retained earnings.

With the declaration by the World Health Organization in March 2020 that COVID-19 was to be treated as a pandemic, together with the escalating rates of infection being experienced across the world, the Bermuda Government took steps in late March 2020 to invoke a number of public policy, social guidance and economic stimulus measures which were designed to help Bermuda navigate through the crisis. These measures have had the broad support of the community and many financial institutions have also responded with economic stimulus initiatives to assist both individuals and businesses during this period. The duration of the managed phases of the process of relaxation from the state of original lockdown to the return of normalcy in Bermuda is uncertain. The BDIC continues to monitor the impact of these various policy and stimulus measures on the participating members in the Scheme and will make prudent provisions in its financial statements should there be tangible evidence of impairment or loss.

10. Capital management

The Corporation's capital consists of equity, which comprises retained earnings. The Corporation's objective is to hold sufficient retained earnings to enable it to withstand negative unexpected financial events. The Corporation seeks to achieve this objective through receipt of premiums from all members of the DIS. The Corporation is not subject to any externally imposed capital requirements.

11. Related party transactions

The Corporation is related to all Government of Bermuda (the "Government") departments, ministries, agencies, funds and quasi-autonomous non-governmental organisations under the common control of the Government. Also, the Corporation is related to organisations that the Government jointly controls or significantly influences. Additionally, the Minister appoints all members of the Corporation's Board of Directors and approves the Corporation's annual expenditure Budget.

The Corporation maintains a position of financial and operational autonomy from the Government through its ability to fund its own operations without government assistance and through its management and corporate governance structures.

BERMUDA DEPOSIT INSURANCE CORPORATION

Notes to the Financial Statements

March 31, 2021

(Expressed in Bermuda Dollars)

11. Related party transactions (continued)

In the ordinary course of business, the Corporation has transactions with the Government which are settled at the prevailing market prices and consist of the following:

	2021	2020
Staff Expenses:		
Payroll Tax	1,702	2,114
Health Insurance	3,001	—
Social Insurance	1,868	—
Premises expense – Land Tax	2,850	2,850
Professional Fees	28,000	27,439

Board and key management compensation

The Directors of the Board of the Corporation are appointed by the Minister to serve for fixed periods of time. The Board oversees the appointment, performance and compensation of the Chief Executive Officer (“CEO”). The CEO was appointed with effect from April 1, 2020 and is paid an annual salary of \$158,000.

Board members are paid an annual fee of \$10,000 (2020 - \$10,000) and the Board Chairman receives an annual fee of \$20,000 (2020 - \$20,000). Board members are paid an additional amount of \$150 (2020 - \$150) per meeting for sub-committee work performed on behalf of the Corporation, with the Board Chairman paid \$250 (2020 - \$250) per additional meeting.

The compensation paid or payable to members of the Board and key management is shown below:

	2021	2020
Directors’ Fees	71,900	52,850
Executive Management salary, and other short-term employee benefits	164,963	—

12. Subsequent events

Effective from March 31, 2022 the Corporation has established a Deposit Insurance Fund for the protection of deposits up to a prescribed limit, and for the payment of expenses incurred by the Corporation in the exercise of its functions under the Act. The balance on the Corporation’s retained earnings of \$35,150,676 as at March 31, 2022 has been transferred to the Deposit Insurance Fund.

On June 6, 2022 Jewel Bank was granted a full bank license and digital asset business license by the Bermuda Monetary Authority making them a participating member in the Scheme.
